

OFFICE OF THE
COMMISSIONER FOR BURNS

OFFICIAL STATEMENT

ON

Fire Prevention Week

October 9th to the 15th 2011

Fire Prevention Week of 2011

As the Commissioner for Burns and Head of Delegation, I wish to sincerely request Families from, around the World to take this time of Fire Prevention Week, to check their Smoke and/or CO Detectors;

To replace their batteries, to develop a home safety plan, of which includes a Fire Escape Plan,

Furthermore, please take this time to really explain safety to your children and take them for a tour of the local Public Safety Agencies, so they see and understand what Fire Fighters, EMS and Police are about. Therefore, your child will not be afraid; of those who are there to assist and save their lives!

Moreover, we- I would to take this time and truly thank a little boy from Princeton New Jersey U.S.A. who went & acted beyond his years and saved his family, from a recent house fire.

As displayed by a 3 year old boy, Fire Prevention must be properly taught in schools, around the world, so that we have more success stories, like the one above.

We-I sincerely thank you, for honoring Fire Prevention Week, 2011

Sincerely,

H.E. Brandon G. Jones-McGeer

The Commissioner for Burns and Head of Delegation
Burn Survivor
